WORK EXPERIENCE

Amazon Web Services (AWS)

Software Development Engineer • Permanent Contract (CDI) • 11.2021 - 03.2023

- Transitioned seamlessly to Amazon Web Services (AWS) following the acquisition of Netfactive Technologies.
- Maintained my role as a Software Development Engineer while aligning my work with AWS's standards and focusing on enhancing AWS BluAge's capabilities.
- Extended BluAge's existing capabilities to seamlessly integrate IDCAMS functions, enabling users to interact with mainframe datasets effortlessly.

Netfactive Technologies

Software Engineer • Permanent Contract (CDI) • 11.2020 - 11.2021

- Contributed to the development and enhancement of BluAge, a software modernization platform that aims to help businesses transition their legacy applications to modern, cloud-ready architectures.
- Developed and supported new features to ensure comprehensive coverage of mainframe languages such as Cobol, PL/I, and JCL
- Contributed to customer support activities by troubleshooting issues and providing timely resolutions.

Schneider Electric

Application Developer • Internship • 03.2020 - 09.2020

- Conceptualized and developed an innovative energy trading app on the Ethereum blockchain.
- Built and coordinated backend architecture using Spring Boot, while also crafting an intuitive front-end using Angular.
- Developed smart contracts with Solidity and utilized Geth, Truffle, and Web3j for blockchain integration.
- Recognized by management for outstanding contributions, receiving an award for project delivery and innovation.

SQLI

Full Stack Developer • Internship • 07.2019 - 09.2019

- Conceptualized and developed a web application for managing social projects built by free donations via the consultation of advertising videos using Java, Spring boot, REST API, Angular, PostgreSQL, Swagger, Spring Security, JWT

EDUCATION

MScEng. Software Engineering

ENSIAS • 2017-2020

Preparatory Classes - Maths & Physics

CPGE Moulay Al Hassan • 2015-2017

SKILLS

- Java / JEE
- JavaScript
- Solidity
- EthersJS
- Spring Boot
- TypeScript
- Angular
- Hardhat
- PostgreSQL
- HTML / CSS
- Git
- Hibernate

LANGUAGES

Arabic : Native Proficiency **English :** Bilingual Proficiency **French :** Professional Proficiency **Spanish :** Limited Proficiency

PROJECTS

Foodies: social network for sharing recipes, reviews and donations

Java, Spring Boot, Spring Security, Hibernate, Angular, PostgreSQL, Rest API, Swagger

*more projects in [my portfolio](#)

ACTIVITIES

Creative Design

MoroccoAI • 03.2021 - Present

Classical Pianist

Conservatory of Larache

Head of Musical Unit / Guitarist

EnsiArts
