WORK EXPERIENCE

Amazon Web Services (AWS)

Software Development Engineer • Permanent Contract (CDI) • 11.2021 - 03.2023

- *Transitioned seamlessly to Amazon Web Services (AWS) following the acquisition of Netfective Technologies.*
- *Maintained my role as a Software Development Engineer while aligning my work with AWS's standards and focusing on enhancing AWS BluAge's capabilities.*
- *Extended BluAge's existing capabilities to seamlessly integrate IDCAMS functions, enabling users to interact with mainframe datasets effortlessly.*

Netfective Technologies

Software Engineer • Permanent Contract (CDI) • 11.2020 - 11.2021

- *Contributed to the development and enhancement of BluAge, a software modernization platform that aims to help businesses transition their legacy applications to modern, cloud-ready architectures.*
- *Developed and supported new features to ensure comprehensive coverage of mainframe languages such as Cobol, PL/I, and JCL*
- *Contributed to customer support activities by troubleshooting issues and providing timely resolutions.*

Schneider Electric

Application Developer • Internship • 03.2020 - 09.2020

- *Conceptualized and developed an innovative energy trading app on the Ethereum blockchain.*
- *Built and coordinated backend architecture using Spring Boot, while also crafting an intuitive front-end using Angular.*
- *Developed smart contracts with Solidity and utilized Geth, Truffle, and Web3j for blockchain integration.*
- *Recognized by management for outstanding contributions, receiving an award for project delivery and innovation.*

SQLI

Full Stack Developer • Internship • 07.2019 - 09.2019

- *Conceptualized and developed a web application for managing social projects built by free donations via the consultation of advertising videos using Java, Spring boot, REST API, Angular, PostgreSQL, Swagger, Spring Security, JWT*

EDUCATION

MScEng. Software Engineering
ENSIAS • 2017–2020

Preparatory Classes - Maths & Physics
CPGE Moulay Al Hassan • 2015–2017

SKILLS

- Java / JEE
- Spring Boot
- PostgreSQL
- JavaScript
- TypeScript
- HTML / CSS
- Solidity
- Angular
- Git
- EthersJS
- Hardhat
- JUnit

LANGUAGES

Arabic : Native Proficiency   **English :** Bilingual Proficiency   **French :** Professional Proficiency   **Spanish :** Limited Proficiency

PROJECTS

Foodies: social network for sharing recipes, reviews and donations
Java, Spring Boot, Spring Security, Hibernate, Angular, PostgreSQL, Rest API, Swagger

*more projects in my portfolio

ACTIVITIES

Creative Design
MoroccoAI • 03.2021 - Present

Classical Pianist
Conservatory of Larache

Head of Musical Unit / Guitarist
EnsiArts
